# VITAL STATISTICS OF THE UNITED STATES, 1983

## VOLUME II—MORTALITY

A brief summary of the contents for sections 8 and 9 is listed below for the convenience of the reader. A complete contents page is at the beginning of each section and is identified by a narrow black edge, which can be located easily by fanning the pages. Each section is paged independently, beginning with page 1. Sections 1 through 7, which show data on General Mortality, Infant Mortality, Fetal Mortality, Perinatal Mortality, Accident Mortality, Life Tables, and the Technical Appendix, are in Part A of Volume II of *Vital Statistics of the United States, 1983.* Section 7, the Technical Appendix, discusses the factors affecting the collection, classification, and interpretation of the mortality statistics.

**PART B**

Section 8. Geographic Detail for Mortality

Total number of deaths, deaths from selected causes, infant deaths, neonatal deaths, fetal deaths, and selected rates and ratios. Tabulations shown by each State and county, specified urban places, metropolitan and nonmetropolitan counties, population-size groups, and standard metropolitan statistical areas.

Section 9. Puerto Rico, Virgin Islands (U.S.), and Guam

Trend of the crude death rate. Frequency tabulations for most of the characteristics shown in other sections of Volume II.

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occuring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

| Area and race | Total deaths by county of occurrence | Deaths by place of residence | | | Fetal deaths by place of residence |
|---|---|---|---|---|---|
| | | Total deaths | Under 1 year | Under 28 days | |

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

| Area and race | Total deaths by county of occurrence | Deaths by place of residence | | | Fetal deaths by place of residence |
|---|---|---|---|---|---|
| | | Total deaths | Under 1 year | Under 28 days | |

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

| Area and race | Total deaths by county of occurrence | Deaths by place of residence | | | Fetal deaths by place of residence |
|---|---|---|---|---|---|
| | | Total deaths | Under 1 year | Under 28 days | |

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

## Table 8-1. Total, Infant, and Neonatal Deaths, and Fetal Deaths, by Race: United States, Each State and County, and Specified Urban Places of 10,000 or More, 1983—Con.

[Data by place of residence exclude deaths occurring to nonresidents; however, data by place of occurrence include deaths of nonresidents. Fetal deaths include only those for which the stated or presumed period of gestation was 20 weeks or more; see Technical Appendix. Urban places are those with populations of 10,000 or more in 1980 and are incorporated unless otherwise noted. Figures by race are shown for those counties and urban places in which the 1980 population for the "All other" group formed 10 percent of the total population of the area or numbered 10,000 or more]

[1] Areas shown are census areas, the nearest equivalent of counties.
[2] Includes data for La Paz which became a new county on January 1, 1983.
[3] Includes data for Texarkana, Ark., only.
[4] Data coded by Connecticut did not identify the incorporated city of Willimantic and are included in Balance of county. Figures shown are for deaths occurring in other States.
[5] There are 13 deaths to residents of Mokapu included in balance of Honolulu County
[6] Areas shown are parishes, the equivalent of counties.
[7] Minimum reporting requirements for fetal deaths are assumed to exceed 20 weeks gestation; see Technical Appendix.
[8] Includes data for Bristol, Tenn., only.
[9] Includes data for Texarkana, Tex., only.
[10] Independent city having population of less than 10,000 according to the 1980 census.
[11] Includes data for Bristol, Va., only.
[12] There are 115 deaths to residents of Pulaski included in Salem city.
[13] Includes data for Bluefield, W. Va., only.
# Classified as urban under special rule; see Technical Appendix.

## Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Ratios, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1983

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates and fetal death ratios per 1,000 live births in specified group. Urban places in metropolitan counties are those with populations of 10,000 or more in 1980; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 in 1980. For definition of areas see Technical Appendix]

## Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Ratios, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1983—Con.

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates and fetal death ratios per 1,000 live births in specified group. Urban places in metropolitan counties are those with populations of 10,000 or more in 1980; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 in 1980. For definition of areas see Technical Appendix]

## Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Ratios, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1983—Con.

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates and fetal death ratios per 1,000 live births in specified group. Urban places in metropolitan counties are those with populations of 10,000 or more in 1980; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 in 1980. For definition of areas see Technical Appendix]

## Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Ratios, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1983—Con.

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates and fetal death ratios per 1,000 live births in specified group. Urban places in metropolitan counties are those with populations of 10,000 or more in 1980; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 in 1980. For definition of areas see Technical Appendix]

## Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Ratios, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1983—Con.

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates and fetal death ratios per 1,000 live births in specified group. Urban places in metropolitan counties are those with populations of 10,000 or more in 1980; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 in 1980. For definition of areas see Technical Appendix]

## Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Ratios, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1983—Con.

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates and fetal death ratios per 1,000 live births in specified group. Urban places in metropolitan counties are those with populations of 10,000 or more in 1980; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 in 1980. For definition of areas see Technical Appendix]

## Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Ratios, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1983—Con.

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates and fetal death ratios per 1,000 live births in specified group. Urban places in metropolitan counties are those with populations of 10,000 or more in 1980; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 in 1980. For definition of areas see Technical Appendix]

## Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Ratios, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1983—Con.

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates and fetal death ratios per 1,000 live births in specified group. Urban places in metropolitan counties are those with populations of 10,000 or more in 1980; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 in 1980. For definition of areas see Technical Appendix]

## Table 8-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Ratios, by Race, for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1983—Con.

[Fetal deaths include only those with stated or presumed period of gestation of 20 weeks or more; see Technical Appendix. Infant (under 1 year) and neonatal (under 28 days) mortality rates and fetal death ratios per 1,000 live births in specified group. Urban places in metropolitan counties are those with populations of 10,000 or more in 1980; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000 in 1980. For definition of areas see Technical Appendix]
